- Action requires an appropriation increase to the Operating Budget
- Action provides increased revenue for appropriation increase
- Action requires use of contingency or reserves
- Other financial impact (Explain):
- X Request provided to department's finance contact prior to the Committee Coordinator

Background/Supporting Information

Changes to the Criminal Justice Information Services (CJIS) Security Policy state that dual authentication for devices accessing CJIS systems must be in place by October 1, 2013. Failure to comply with the policy changes may result in the termination of mobile device access to federal systems and Police's CAPRS RMS system.

IT has reviewed the 2FA dual authentication solution provided by Aercor Wireless, Inc. and has determined that its infrastructure and information security measures meet both the federal and IT's architectural requirements. The 2FA solution integrates with the City's current NetMotion VPN product that supports secure access of the mobile data computers in the Police squad cars to the City network. The NetMotion VPN product is also supplied by Aercor Wireless, Inc.

Request for Approval

IT requests approval to authorize proper City officials to execute a contract with Aercor Wireless, Inc. to expire on December 31, 2015 for a not-to-exceed amount of \$250,000 for licensing, support and maintenance of the NetMotion and the 2FA dual authentication solutions.

The costs for the contract are covered within Police's existing budget. No additional appropriation is required.
